MINI PROJECT

B.Tech
Information Technology

Topic: Techopharm

Subject: IT Essentials

Register Number:2022506084

Name: Gowtham Rajasekaran

Submitted on: 31-07-2023

Submitted to: Dr.Hemalatha

SERVER:	XAMPP
MODULES:	Apache, MySQL
REQUIREMENTS:	HTML,CSS Libraries, JS, PHP, MySQL Connections.
DBMS:	MYSQL (open source)
CODE EDITOR:	Visual Studio Code

General write-up:

I.INTRODUCTION

My idea of this mini project is to create a website, where medicines can be bought online by the customers.

The aim of this project to ensure the comfort and safety of the customers by providing 3-step quality assurance and having good record of essential details like manufacture date, expiry date, etc.

Separate pages are created for admin and users where each page contains different functionalities.

II.FUNCTIONALITIES OF THE WEBSITE

➤Admin section:

1. To view the orders placed by customers.
2. To view the status of different customers' order.
3. To keep record of the available medicines.
4. To change the availability of medicines.
5. To view the details of the users.
6. To add and delete the items.
7. To logout to general page.
8. To view the reports

➤User section:

1. To update profile of the user.
2. To view the available medicines for purchase.
3. To view status of our orders.
4. To logout to general page.

➤General page:

1. Shows answers to common questions about the site.
2. To direct to admin login.
3. To direct to user login.
4. To use forgot password.
5. To sign up for new customers.

III.PAGES

- ✓ General page
 - Admin login page
 - User login page
 - New user registration page
 - Forgot password page
 - Report page
- ✓ Admin page
 - Orders page
 - Status page
 - Stock page
 - Customer details page
 - Add stock page
 - View reports page
 - Logout page
- ✓ User page
 - View profile page
 - Items page
 - Status page
 - Logout page

IV.REQUIRMENTS

HTML,CSS Libraries, JS, PHP, MySQL Connections.
